

Expanded Resource Ordering Coordinator (EROC) Roster

- EROC changes at 0800 every Tuesday morning.
- The name on the roster is the primary EROC for one week from the date shown. If the person is unable to fulfill his EROC duties at any time during his time "up" then he is responsible for contacting another qualified person and ensure he is prepared to respond to a page. Please contact the Fire Administration Center (FAC) @ 737-0911 to have the roster updated if the change is for >24 hours. The second column of the roster will mark the change.
- Very often it is useful to have additional qualified people to assist the EROC, at the EOC or at the incident. These positions are not rostered. Other qualified people can make themselves available, if possible, when contacted by the EROC.
